

The Enphase IQ Battery 10C works with your solar system to store excess solar energy for use later. It can power essential loads during an outage and may help reduce reliance on the grid and lower ...

It provides a total usable energy capacity of 10 kWh and delivers 7.08 kW of continuous power, easily supporting heavy loads such as HVAC units and pool pumps. Its compact design requires less wall ...

It has a total usable capacity¹ of 10.0 kWh and includes four embedded, grid ...

The IQ Battery 10C is Enphase's latest 10.0 kWh home energy storage system, launched in 2025. Designed for AC-coupled systems, it pairs perfectly with Enphase microinverters, including ...

The IQ Battery 10C uses lithium-iron phosphate (LFP) chemistry for safety and longevity. It also includes built-in neutral-forming microinverters that enable backup functionality and reduce ...

The Enphase IQ Battery 10C successfully addresses two major market pain points: battery size and availability. Its compact design, advanced cooling technology, superior 15-year ...

The Enphase IQ Battery 10C offers homeowners an advanced, compact, and powerful energy storage solution, ensuring reliable performance and optimal energy management.

Enphase Energy has unveiled the 7.08 kW IQ Battery 10C, a fourth-generation energy system that provides 10 kWh of useful energy. The battery, which is manufactured by a contract ...

It has a total usable capacity¹ of 10.0 kWh and includes four embedded, grid-forming microinverters with a 7.08 kVA continuous power rating. It provides backup capability, and installers can quickly design ...

The Enphase IQ Battery 10C is a powerful, compact AC-coupled energy storage solution designed for seamless integration into new or existing Enphase Energy Systems.

Store solar energy efficiently with Enphase IQ Battery 10C. 10 kWh capacity, 7.08 kW continuous power, safe LFP chemistry, and flexible installation.
