

40-foot solar-powered container distributor for data centers

Engineered for industrial resilience, this 40ft fold-out system offers 140kW solar power and 215kWh storage. Equipped with durable 480W PV panels, it supports manufacturing zones or logistics hubs ...

The system can be used to store electrical energy for commercial, industrial, or grid-scale applications. It is equipped with battery room, transformer, controller, HVAC, and other necessary equipment to ...

Uniteam turn standard ISO shells into turnkey micro-data centers. Each module ships with integrated power, cooling and security, giving you rack-ready IT capacity anywhere--inside your facility, at a ...

Coolnet container data center integrates AC/DC power supply, HVAC, closed cold/hot aisle, modular structure, fire fighting and intelligent monitoring.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Designed for peak shaving, price arbitrage, grid balancing, energy trading, frequency regulation, and data centre applications. Industrial-grade solution for utility-scale energy management and grid stability.

Following the growing applications for edge computing, Delta is introducing a new generation of Containerized Data Center Solutions with flexible power and cooling designs, quick deployment and ...

The 200KW Solarfold Mobile Solar Container from HighJoule features a foldable deployment system using 610W modules. It's a high-yield, portable solution for urgent deployment and high-demand field ...

Uniteam's Data Center Container 40 ft HC transforms a ISO shell into a fully featured data center. Factory-built and pre-tested, the module ships with power, cooling and security systems integrated. ...

This system is ideal for factories, mining operations, ports, data centers, and other high-energy-demand environments. It delivers reliable, scalable power for both backup and grid-tied applications.
