

LONGi is proud to announce the completion of module supply for a monumental 550 MW PV plant project in the old lignite mines in Western Macedonia belonging to PPC Renewables (PPCR).

LONGi has completed the delivery of all 550 MW of its high-efficiency Hi-MO 7 modules, which will be used in Southern Europe's largest single photovoltaic power plant to date.

Following the signing of a 1.1GW deal, GCL, a domestic photovoltaic giant, has reached a new supply agreement for 550MW photovoltaic modules with another state-owned company in ...

This capital infusion will support the new 550 MW solar line in Rogers, expected to create over 150 full-time jobs. Known as MN #3, the line will boost Heliene's total U.S. manufacturing ...

LONGi, a global leader in solar technology, has announced the completion of module supply for a monumental 550 MW photovoltaic plant project in the old lignite mines in Western ...

Recently, Chint New Energy's Wenzhou Taihan 550MW complementary photovoltaic power generation project was successfully connected to the grid for power generation. The project ...

Located at Wenzhou Bay in Zhejiang, Taihan 550MW Project is the largest Fishing-Solar Hybrid Project in Asia. Equipped with pieces of 1,396,000 ASTRO 5 modules, the project is expected to provide 650 ...

LONGi has announced the completion of module supply for a 550 MW PV plant project in the Western Macedonian lignite mines belonging to PPC Renewables (PPCR), Greece's largest ...

GCL System Integration (GCL SI) has landed a substantial deal for supplying 550 MW of photovoltaic solar modules to SJVN Green Energy Limited (SJVN), a state-owned renewable energy ...

Athens, 31st of July 2025 - LONGi, global leader in solar technology is proud to announce the completion of module supply for a monumental 550 MW PV plant project in the old lignite mines in ...
