

The MTS9300A-XA10A2 is a new type of battery cabinet designed by Huawei to support 5G networks. It has an IP55 protection level, integrated cooling system, and can accommodate multiple lithium or ...

The 5G-LTE series "MICRO" enclosure delivers the same robust protection as its larger counterparts in a compact design. Engineered to withstand extreme heat, heavy rain, and freezing temperatures, it ...

It can provide RS485 communication interface, which is convenient for remote monitoring and unattended operation. At the same time, the system can also be configured with a set of 100AH ...

It is designed for a variety of applications and can be tailored to fit your specific needs. This cost effective solution has a unique cube design that give flexibility to easily have various heights of cabinets.

It is designed for a variety of applications and can be tailored to fit ...

Enable high-speed 5G networks with ICS small cell cabinets. Compact, durable, and optimized for urban & remote deployments.

This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic distortion $\leq 3\%$. It complies with international standards such as IEC/EN62109, IEC/EN62477, providing reliable ...

Voltsmile's Outdoor Energy Storage Cabinet is engineered to withstand harsh environmental conditions, including extreme temperatures (-30°C to 60°C), heavy rain, dust, and corrosion.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Feature-rich 5G-LTEs are built for any industrial situation; these waterproof, weatherproof NEMA enclosures are offered in standard and mini sizes. Installed components include HVAC climate ...

With advanced BMS intelligence for precise State of Charge and State of Health tracking, EnergyCore cabinets simplify installation, reduce maintenance, and optimize runtime.
