

How do I identify a fake solar installer?

Fake solar installers can go to great lengths to scam unknowing homeowners and businesses. They may have a genuine-looking website and run ad campaigns on social media. Here are some easy steps to identify a fake installer: ABN lookup: One of the quickest ways to see how long a business has been operating is to look up their ABN.

Can a fake solar installer take Your Money?

Fake installers exist to take your money with no intention to install solar on your home or business. They generally ask for a large upfront deposit. Now, this isn't uncommon for genuine solar installers to request, as a deposit is generally required prior to installation, but it's usually the size of the deposit to be wary of.

Are solar panels a scam?

Scammers often advertise "\$0 down on owning solar panels" or "solar panels at no cost" but don't disclose that the homeowner won't own the panels. Lease and PPA agreements typically prevent homeowners from benefiting from most federal and state incentive programs and also have hidden fees and unfriendly financial terms.
