

Custom-made Canadian lead-acid battery cabinet with 800mm depth

What is a sealed lead acid battery?

Canbat is constantly developing new battery technologies to meet the demands of the evolving global battery market. Sealed lead-acid batteries are often referred to as valve-regulated lead-acid (VRLA), or simply sealed lead acid (SLA). There are primarily two types of these batteries: AGM and Gel.

Who makes CANBAT batteries?

Canbat is a Canadian battery company specializing in deep cycle and backup applications. Our line of products include sealed lead-acid (SLA), lithium iron phosphate (LiFePO₄) and lead-carbon batteries. We also manufacture lithium battery chargers and power converters, primarily used in the RV market.

What is a CANBAT lead carbon battery?

Canbat lead carbon batteries are designed with PSOC compatibility for ultra-fast charging capability, efficiency and more than three times as many cycles as standard AGM batteries. They are a great upgrade from lead acid and are more cost effective than lithium. Lead carbon batteries are offered in two main formats: front terminal and top terminal.

What kind of batteries are available in Canada?

Canadian battery supplier offering superior sealed lead-acid, lithium iron phosphate and lead carbon batteries. Battery experts specializing in energy solutions are available to help you find the best batteries for your project. State of the art battery equipment is used to manufacture batteries for consistent quality and fast production.

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries. The construction characteristics of the ...

Canbat manufactures durable and reliable sealed lead acid (SLA) batteries for deep cycle and standby applications. Our maintenance-free, leak-proof batteries power electric wheelchairs, mobility ...

Durable and Waterproof Design: The Custom Fabricated Waterproof Lithium Lead-Acid Battery Cabinet is designed to protect your valuable equipment with a sturdy IP65 metal/aluminum/steel enclosure, ...

Customizable layout supports various battery types such as LiFePO₄, NMC, and lead-acid, with flexible space design for modular or full-pack configurations. High protection ratings including IP55, IP65, ...

EverExceed VRLA battery assembly cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This ...

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

Custom-made Canadian lead-acid battery cabinet with 800mm depth

Experience Manufacturing Custom Battery Enclosures For Lithium Ion, Lead Acid, and Industrial Battery Applications From concept and design to fabrication and assembly, Bull Metal Products ...

Discover all relevant Battery Cabinet Manufacturers in Canada, including AEG Power Solutions and Canbat Technologies Inc.

We work with manufacturers to provide you with battery racks and cabinets made specifically for your battery system. Contact us now.

Our quality custom lithium-ion battery storage cabinets are skillfully fabricated leveraging our 250+ team of professionals, leading-edge equipment and robotics, and 55+ years of dedication to ...
