

Next-Gen Fast Recharging Technology - With DJI's advanced fast-charging technology, Power 1000 gets you back to 100% power in just 70 minutes (0-80% in 50 minutes) using grid power ...

Supports simultaneous 1200W solar power and 600W continuous car power to quickly recharge DJI Power 1000. Convenient RV Energy Storage, Charge While Driving.

Extra batteries to expand storage, solar inputs, rapid charging input, car charging, and fast charging for some recent DJI drones can all be accomplished.

Shop DJI Portable Power Station - a quiet, high-capacity power solution with solar generator support and fast charging for DJI drones and electronics.

DJI Power 1.8kW Solar/Car Super Fast Charger [1] can connect to solar panels via the XT90 port [6], to provide a max 1800W [10] solar power to quickly recharge the power station, enabling a more eco ...

DJI Power 2000 can now time your charging and discharging, so your devices draw energy when it's cheapest -- or even better, feed surplus solar energy back into the grid -- ...

Next-Gen Fast Recharging Technology - With DJI's advanced fast-charging technology, Power 1000 gets you back to 100% power in just 70 minutes (0-80% in 50 minutes) using grid power ...

Recharge to 80% in just 55 minutes using AC power, or opt for solar and car recharging. Highly expandable, it can be extended up to 22,528 Wh, providing flexible power for home backup, road ...

DJI launched two new charging solutions to expand its power storage ecosystem, marking a continued push beyond its core drone business.
