

The Minister of Public Works, Samuel Marçal, said that the new photovoltaic solar energy project "will bring significant benefits to Timor-Leste, contribute to sustainable development and ...

Idiosyncratic drug-induced liver injury (DILI) is an infrequent but important cause of acute and chronic liver disease worldwide. DILI develops largely independent of the dose or duration of ...

DILI occurs when a susceptible person receives a drug with hepatotoxic potential, typically associated with daily doses of 50 mg or greater, high lipophilicity and extensive hepatic metabolism.

Prevailing Wage ensures workers receive locally competitive wages, while Apprenticeship requirements mandate that a percentage of labor hours be performed by qualified apprentices. Meeting these ...

Delhi Chief Minister Atishi on Wednesday launched the "Delhi Solar Portal" to make rooftop solar installations accessible and convenient for Delhiites. The initiative is in line with the ...

With the new UN reforms, the United Nations in Timor-Leste, under the leadership of the Resident Coordinator (RCO) has now started lighting the way with its solar-powered grid which has ...

Summary: Dili's strategic investment in energy storage power stations addresses renewable energy challenges while creating new opportunities for industries like power grids, manufacturing, and ...

DILI has two types: intrinsic and idiosyncratic. Patient, environmental, and drug-related factors may play a role in the pathogenesis of DILI. In the United States, antibiotics and antiepileptic ...

The Delhi Solar Energy Policy 2023 was notified in March 2024 with the goal of increasing installed rooftop solar capacity to 750 MW within the state and accessing utility-scale solar capacity of 3,750 ...

Drug Induced Liver Injury (DILI) presents a critical challenge to the pharmaceutical industry and patient care.

Participants gained knowledge on integrating renewable energy sources into national grids while ensuring grid stability and reliability, with a focus on hybrid systems that combine solar, ...

The DILIRank dataset consists of 1,036 FDA-approved drugs that are divided into four classes according to their potential for causing drug-induced liver injury (DILI). The DILI classification...

Renewable energy potential is strong in East Timor, according to the Asian Development Bank, with almost the entire territory having the potential to successfully generate solar energy.

By utilizing dual-energy sources, hybrid solar systems provide a continuous power supply, allowing homes to harness solar energy when available and switch to grid or backup electricity ...

Drug-induced liver injury (DILI) and herbal-induced liver injury (HILI) are well-recognized and symptomatically can mimic both acute and chronic liver diseases.

Drug-induced liver injury (DILI) remains the most common cause of acute liver failure (ALF) in the western world. Excluding paracetamol overdose, nearly all DILI encountered in the clinical setting is ...
