Who is IPP Ghana?

IPP Ghana is a newly formed independent power producer (IPP) in the country. Our team comprises of local and internationally experienced professionals. We have signed a four-year emergency power agreement with the Government of Ghana to help bring immediate reliable and sustainable electricity to homes and businesses in the region.

How will GPGC power the new power plant in Ghana?

GPGC will power the new power plant in Ghana using advanced upgraded power plants transported from Italy. These power plants will utilize General Electric Sprint Gas Turbines (LM6000PD and LM6000PF). Both turbines have recently been fully serviced by General Electric. Together, they will provide a total of 107mw additional capacity into Ghana's power grid.

What role does GPGC play in Ghana?

GPGC has invested close to USD 100 million in Ghana to bring additional capacity to the country's power grid with the installation of the power plant project. The company is fully committed to supporting Ghana's economic growth and is building long-term partnerships with integrity.

Containerized System Innovations & Cost Benefits Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal ...

Frequent power outages, rising electricity prices, and high costs of diesel-powered generators have made stable power supply a critical need for businesses and households in Ghana. ...

We are the leading embedded power generation producer in Ghana with just over 200MW of installed capacity. Over the last 19 years, we have designed and built seven power plants in Ghana and one ...

Konnected: African Suppliers of world leading Power Solutions. Konnected Power: power generator systems in Ghana, Cummins official partner. Konnecting Levels: urban mobility solutions: elevators ...

Product Description The Mobile Solar PV Container is a portable, containerized solar power system designed for easy transportation and deployment. It integrates advanced photovoltaic modules, ...

About AKSA Ghana As a subsidiary of AKSA Power Generation, AKSA Generators Ghana Ltd. has been serving Ghana and neighbor countries with the supply of generator sets, after-sales support, ...

Ghana containerized power generation manufacturer

Case Study: Tema Industrial Zone Transformation Our team implemented a containerized microgrid solution combining 8MW solar carports with 24MWh thermal storage. The results? Outages dropped ...

Why Energy Storage Matters for Kumasi's Growth As Ghana's second-largest city, Kumasi faces a critical challenge: balancing rapid urbanization with reliable electricity supply. The Kumasi Battery ...

Overview LZY-MS1 Sliding Mobile Solar Container is a portable ...

ABOUT Ghana Power Generation Company (GPGC) aims to improve the security of power supply in Ghana with solutions that complement the Government of Ghana's efforts to increase generation ...

Overview LZY-MS1 Sliding Mobile Solar Container is a portable containerized solar power generation system, including highly efficient folding solar modules, advanced lithium battery ...
