

An MoU between Axian Energy, Green Energy Solutions and Chad's ministry outlined a 100 MW solar and 50 MWh storage project aimed at strengthening national electricity access.

Abu Dhabi-based Global South Utilities (GSU) has inaugurated the Noor Chad 50MW solar photovoltaic (PV) plant in N'Djamena, positioning the project as Chad's first utility-scale solar ...

Djermaya is the first independent power producer in Chad, as well as the first and largest utility-scale PV project in the region to integrate renewable power into the national grid and to incorporate a utility-scale BESS ...

The project will build two solar power plants in the outskirts of N'Djamena, each able to produce 15 megawatts of peak electricity. It also includes new power stations, connection lines and a ...

It will increase power supply by 20% and pave the way for the country's energy transition from expensive, polluting fuel-based power to clean energy. The project will build two solar power ...

The Noor Chad 50 MW Solar PV (Photovoltaic) Plant in N'Djamena, developed by Abu Dhabi-based Global South Utilities (GSU), will now provide clean electricity to 274,000 homes in the African ...

By combining solar generation with battery storage, the installation demonstrates how innovative solutions can support reliable electricity access, reduce emissions, and enhance energy security in ...

Our projects not only deliver reliable electricity to communities but also play a vital role in the effort to reduce reliance on fossil fuels, mitigating climate change, and promoting sustainable development across the ...

The project content is to build a 30 MW photovoltaic power station and a 20 MWh photovoltaic power station with energy storage. The project duration is 10 months, and it is expected to be completed in September 2023.
