

In residential homes, Huijue Group's next-generation home energy storage inverter system plays a vital role. It provides stable power supply for households, especially during unexpected power outages, ...

Huijue has a senior technical team and an efficient supply chain system, and its production capacity and contract performance capabilities are fully guaranteed.

The wall-mounting 5.12kWh 100Ah lithium battery is a product of Huijue Group, which, in turn, assures new and advanced home energy storage with integrated BMS for real-time monitoring, hence widely ...

Compact and reliable Huijue systems provide energy independence and efficiency for modern homes. The Huijue Group's Optical-storage-charging application scenario is a typical application of microgrid ...

With 5.12kWh capacity in a slim 85mm profile, this system solves the #1 complaint in home solar installations: inefficient space utilization. Engineered for Modern Energy Demands

The Huijue home energy storage and inverter all-in-one system integrates a photovoltaic inverter, energy storage lithium batteries, and an energy management system into one. This all-in-one design brings ...

This integrated inverter with PV modules has an energy storage function, making PV power generation self-sufficient.

Wall-mounted HJ-HIO48 inverter/charger for home energy storage. Multi-functional, user-configurable LCD for seamless power backup & tailored settings.

The modular design of Huijue's home energy storage inverter makes it easy to operate and lightweight. This simplifies installation and maintenance, reducing transportation and labor costs.

With this product's integrated battery and inverter, you can reduce your adaptation worries, easily save on electricity bills and back up your power in case of grid outage or unavailability.
