

N-Type Technology N-type cells offer Jinko's in-house TOPCon technology with better performance and improved reliability.

The panel dimensions are 2278 mm in length, 1134 mm in width, and 30 mm in thickness, with a weight of 32 kg. These measurements facilitate installation on various structures, offering versatility for solar ...

Panel Dimensions: 2278*1134*30mm Brand Name: Jinko Model Number: JKM550-570M-72HL4 Application: Solar Power System Product name: Jinko Tiger Pro 550W 555W 560W 565W 570W ...

Higher Efficiency - The Jinko 570W solar panel is highly efficient, providing a maximum power output of 570 watts. This means that the panel generates more power than traditional solar panels of a similar ...

Brand Name: Jinko Solar Cell size: 182mmx182mm Solar Panel Efficiency:22.07% Solar Panel Size: 2278*1134*35mm Model Number: Tiger Neo N-type 72HL4- (V) 550-570 Weight:27kg Cell Type: P ...

See the table below for available information we have about Jinko Solar Co Ltd JKM570-N-72HL4- (V) solar panels. We do our best to provide information such as the JKM570-N-72HL4- (V) panel ...

Jinko Solar Co., Ltd. Solar Panel Series Tiger Pro 72HC 550-570W (EU). Detailed profile including pictures, certification details and manufacturer PDF.

The Jinko 570w solar panel provides versatility and flexibility for various solar projects. Its high power output, combined with its compact size, allows for efficient installation in diverse settings, including ...

Better light trapping and current collection to improve module power output and reliability. Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. Module ...
