

Unisolar has successfully completed a landmark 7.4 MW solar project in Kosovo, marking a significant milestone in the nation's ongoing transition toward renewable energy.

Kosovo's solar energy sector is poised for substantial growth, with the country's energy minister, Artane Rizvanolli, announcing plans to add 100 MW of new solar capacity by the end of 2025.

Government-controlled Kosovo Energy Corp. (KEK) said it is preparing to start building its Solar4Kosovo 1 photovoltaic plant near Prishtina. It informed the local community that agricultural and other ...

This will be the first large-scale solar photovoltaic plant in Kosovo and will increase installed capacities tenfold from 10.1 MW to 110.1 MW. As a result, the share of solar power in the energy mix of Kosovo will increase ...

Last week, the Energy Regulatory Office (ERO) of Kosovo announced in a notice that it has issued construction permits for three photovoltaic projects with a total installed capacity of 107 megawatts. ...

Kosovo recently held a successful, competitive auction for a 100 MW solar PV project. In 2024, Kosovo completed its first ever solar auction with winning bidder, the Orllati consortium, for a 100 MW solar park in ...

Kosovo has achieved a significant milestone in its transition to renewable energy by approving 107 MW of new solar projects in its latest auction. The record-low price of EUR0.06499 (\$0.069) per kWh secured during the ...

Kosovo's energy regulator ERO said it has granted three licences for the construction of photovoltaic projects with a total capacity of 107 MW.
