

Mobile Energy Storage Container with 40-foot Ratio Generator

This fully equipped 40ft. ISO container is as tough as they come and has been custom-designed for harsh environments, offering superb protection from dust, insects, humidity and heat - both inside ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Find out how a 40FT battery energy storage container can provide reliable power supply and energy storage in remote regions, field operations, and emergency situations.

The system can be used to store electrical energy for commercial, industrial, or grid-scale applications. It is equipped with battery room, transformer, controller, HVAC, and other necessary equipment to ...

The lightest and most portable of our Energy Storage Systems, the ZBP 2000, which is built to small events, small construction sites, and is especially useful for powering small electric tools.

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% ...

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

The flagship model offers a powerful 150kW PV array and 430kWh of energy storage. Built in a 40ft High Cube foldable container, this all-in-one portable system is tailored for long-term off-grid operations ...
