

Why is Mozambique acquiring 25-30 MW of solar PV?

The procurement of 25-30 MW of solar PV is the first stage of implementation of the program which will contribute to the diversification of Mozambique's power mix and improve power supply quality, whilst ensuring low-cost energy for Mozambican end users

Who owns land in Mozambique?

According to the Constitution of the Republic of Mozambique and as reflected in the Land Law (Law no. 19/97 of 1 October), land is owned by the State, but the rights to use and occupy land can be granted to users in form of a DUAT.

What is get fit Mozambique?

GET FiT Mozambique aims to facilitate investments in relatively small-scale (4-15 MW), grid connected renewable energy Independent Power Producer (IPP) Projects, with EDM as the key off-taker and counterpart of the Power Purchase Agreements (PPA).

Which local communities will be affected by solar PV projects with storage facilities?

In April and May 2025, the Programme Implementation Consultant (Multiconsult Norge AS) together with EDM held consultations in the five local communities that will be affected by the implementation of Solar PV projects with storage facilities (Mecubiri, Meconta, Caia, Limpompo and Guija).

Though the project is the first large-scale solar-plus-storage project in Mozambique, a larger, 300MW project recently secured a land agreement for a 950 hectare area a few months after ...

Shortlist Announcement - GET FiT Mozambique Solar PV + BESS Tender Following a thorough and competitive evaluation process, the GET FiT Mozambique Secretariat, in collaboration with the ...

Discover how Mozambique is leveraging cutting-edge energy storage solutions to stabilize its grid and attract foreign investment. Explore market opportunities, technical innovations, and the role of ...

How Mozambique Is Pioneering African Energy Storage The 50 MW/200 MWh Cuamba Solar-Storage Hybrid Project demonstrates Mozambique's innovative approach. Commissioned in January 2025, ...

Summary: Mozambique's energy storage power station projects are revolutionizing renewable energy integration while addressing grid stability challenges. This article explores the technical innovations, ...

Jonathan Hoffman, Globeleq's chief development officer called the project a trailblazer for future utility-scale energy storage not only in Mozambique but the region. "Cuamba Solar, along with all our ...

Mozambique's energy regulator has launched a tender for solar-plus-storage hybrid projects across several provinces. The deadline for applications is Sept. 13.

In summary, this 14 MW solar and 40 MWh battery storage project is a concrete step forward for Mozambique. It enhances electricity reliability, supports economic expansion, and ...

Mozambique's first solar plus storage IPP project breaks ground African focused renewable energy independent power producer, Globeleq, and its project partners, Source Energia and Electricidade ...

Summary: Mozambique is emerging as a leader in Africa's renewable energy transition through its ambitious wind and solar energy storage projects. This article explores the country's innovative ...
