

New Zealand Mobile Energy Storage Container 600kW

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

Where can I rely on a containerised energy storage solution?

Today, we are also a name you can rely on for safe battery storage. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over New Zealand and further afield (we have a footprint in 90+ countries).

How Titan's mobile energy storage solutions work?

In a world of uncertainties, TITAN's mobile energy storage solutions provide reliable power where and when it is needed. Functioning like mini power stations, our battery storage containers (also known as BESS systems) load power from renewable energy sources into lithium-ion batteries, where it is kept until ready for future use.

What is containerised battery storage?

A long-term solution: our containerised battery storage solutions are built to last for decades. Your system's precious lithium-ion core is housed in an incredibly tough shipping-grade container. Battery storage from solar panels, wind turbines or water sources can give you the independence you need.

Why New Zealand Needs Off-grid Energy Storage New Zealand's geography creates very distinctive challenges for the national power grid. In fact, remote areas regularly suffer from very costly ...

Parameter 50KW-300KWh;50KW-600KWh;50KW-700KWh Equipment 10-foot and 20-foot container,energy storage systems Address New Zealand Request project pricing Project Overview This project is located in ...
