

Slovakia currently generates about half of its electricity from nuclear power. The country operates five reactors, with another under construction. Officials view nuclear energy as a stable,...

We're committed to lowering costs, supporting job growth and preparing the grid for the demands of the future. From keeping families warm during a storm to enabling new businesses to thrive with reliable ...

New York Independent System Operator - our mission is to ensure power system reliability and competitive markets for NY in a clean energy future while working together with stakeholders to build ...

Power Trends explores the issues and challenges shaping the grid of the future based on the latest economic data, forecasts of peak demand and changing generation mix.

Key Takeaways
Upstate (Zones A-E) Generation to Serve Load 2030
Downstate (Zones F-K) Generation to Serve Load 2030
Upstate (Zones A-E) Generation to Serve Load 2040
Downstate (Zones F-K) Generation to Serve Load 2040
NYS achieves its "70% renewables to meet load in 2030" and "100% clean energy to meet load in 2040" targets with a renewable mix of offshore wind, land-based wind, utility solar, distributed solar, and hydro (in-state and imports) resources. See more on nysersda.ny.gov
National Grid Group New York | National Grid
We're committed to lowering costs, supporting job growth and preparing the grid for the demands of the future. From keeping families warm during a storm to enabling new businesses to thrive with reliable ...

The Power Grid Study is a first step toward planning the investments in New York's electric system that are needed to meet CLCPA goals. It provides valuable information to the State, ...

A state-wide scenario-based study to analyze transmission, generation, and storage options for achieving 70% renewable generation by 2030 and a zero emissions grid by 2040, sponsored by ...

Map of Slovakian Electricity Grid - Slovakia - National Energy Grids - Library - GENI - Global Energy Network Institute. Slovakian Energy Summary | .

New York (NY) region electricity overview (demand, forecast demand, net generation, and total interchange) 1/26/2026 - 2/2/2026, Eastern Time Data source: U.S. Energy Information Administration

Below is a representative visualization of how this transformation could potentially take place across the State using information from an Initial Scenario in the Zero Emissions Electric Grid in NY by 2040 ...

The Utility Study identifies a number of upgrades to the local transmission and distribution systems to

accelerate progress towards meeting 70% of the State's electric energy demand with ...
