

Discover key factors when selecting a LoRa base station--range, frequency, scalability, and more. Make an informed decision for reliable long-range connectivity.

Connecting the Network: The product supports Wi-Fi and 4G network connections and can receive and process multiple sensor data types, prioritizing Wi-Fi for data upload to the weather station server.

MultiTech Conduit&#174; IP67 200 Series Base Station is a ...

This flexible solution provides durable, low-power, low-power, wide area network connectivity in support of M2M and IoT applications for both LoRa service providers and individual enterprises wanting to ...

Built for the toughest environments, the MultiTech Conduit&#174; IP67 Base Station delivers secure, reliable LoRaWAN&#174; connectivity for outdoor and industrial IoT deployments.

MultiTech Conduit&#174; IP67 200 Series Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa&#174; public or private network deployments.

Bundled for easy deployment, the solution includes a Conduit with a LoRa mCard™, IP67 enclosure and LoRa antenna to improve outdoor range. It also provides a choice of cellular 3G, 4G-LTE or ...

Connecting the Network: The product supports Wi-Fi and 4G network ...

WAVIoT base stations and NB-Fi Transceivers with best-in-class receiver sensitivity enable the use of all advantages of the NB-Fi technology at the same time: long range of bidirectional data ...

Explore SensMonitor's outdoor IoT monitoring solutions for real-time data collection in challenging environments. Our rugged sensor stations, equipped with waterproof enclosures, cellular (4G/5G) ...
