

Committed to Restoring America's Energy Dominance.

SEIA makes major solar project data available to the public through the map below. SEIA members have exclusive access to the list as a sortable, searchable MS Excel file that is updated monthly.

View our portfolio of hundreds of operating and development solar, wind, and storage projects across the United States.

The USPVDB Viewer lets you discover, visualize, and interact with the USPVDB through a dynamic web mapping application.

View an interactive map or download geospatial data on solar photovoltaic supply curves.

Interactive U.S. Solar Farms & Solar Parks Map showing plant boundaries, owners, nameplate capacity (MW), and power output. Based on EIA-860/860M/923. Filter by utility-scale photovoltaic and CSP ...

This map contains multiple layers showcasing solar infrastructure within the US. The map visualizes solar power plants, electric power transmission lines, and the photovoltaic (PV) ...

Obtain a review of solar, storage, and other DER generation projects in New York State that received funding through NYSERDA. This dataset also includes detailed information each of the operational ...

A map of the US that provides information on major PV and CSP solar projects and their status.

Here is a map of all utility-scale solar farms in the US. Hover over a solar farm to view information on each project like their name, capacity and construction date.
