

Photovoltaic panel automatic assembly line

IOCCO designs and supplies photovoltaic module assembly equipment and turnkey lines. We integrate stringing, lay-up, lamination, junction-box, testing and packing with safe handling and full traceability.

Our solar panel manufacturing plants are equipped with the latest in photovoltaic panel machinery and solar-making machines. These facilities support large-scale production capacities from 100MW to ...

With 25+ years of experience and over 250 lines delivered globally, we're the only 100% European manufacturer providing every machine for PV panel assembly and quality control under one roof.

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and ...

Turnkey solar automation solutions with a capacity of between 15MW and 200MW per year. Tailor made dedicated for your business.

Ooitech, Full Automatic solar panel manufacturing equipment supplier, producing solar panel Making Machines and production lines at Good prices, including Assembly and Turnkey Lines, ...

In Ecoprogetti we work daily on the design and construction of complete production lines for solar panel assembly. We build high-quality hardware and dedicated software in-house. Each ...

What we offer to our customers is a high capacity automatic solution for the assembly of photovoltaic modules. Partnering with CETC Solar Energy, and leveraging our experience, enables a quick and ...

Sharing the latest solar panel manufacturing technology, from 166 182 210 half-cut panels up to 800watt panels, and 1/3 or 1/8 shingled solar cell panels. We have full factory layout solutions from CAD ...

ConfirmWare provides state-of-the-art and fully-automated production line solutions, scaled to fit any production with minimal human supervision. Seamless integration of each section assures smooth ...
