

Power generation and energy storage in Lagos Nigeria

Osun State Governor Ademola Adeleke has called for Nigeria's power transition to prioritize energy storage and system reliability beyond electricity generation alone. The governor made the call ...

During this event, the entire power and utilities ecosystem at Powerelec Nigeria will give an overview of solutions for generation, transmission, distribution, and more.

We recommended a suite of measures, including localised solar power generation, energy efficiency improvements, and battery storage solutions. We also proposed a collaborative renewable energy ...

State report is more than just a study--it's a catalyst for action. The study offers insights that systemically should drive Distributed Solar PV (DPV) initiatives such as rooftop solar with backup ...

Unlike conventional solar companies, ABSEN introduces a suite of integrated battery storage solutions designed to ensure stable and reliable power supply across homes, businesses, and...

This article explores the role of the Lagos battery energy storage power station, its impact on the energy sector, and how it addresses Nigeria's growing demand for reliable electricity.

This ambitious energy plan was disclosed, on Tuesday, during Lagos Energy Summit, where the State Government's representatives are meeting with regulators, investors and ...

Lagos is now pursuing Expressions of Interest (EOIs) for gas-fired, grid-scale solar and captive power generation projects aimed at injecting 6 GW of power into Lagos electricity market.

As Lagos battles chronic power shortages, containerized energy storage systems are emerging as a game-changer. This article explores how modular battery solutions can stabilize Nigeria's energy ...

Aed Energy, a UK-based developer of next-generation thermal energy storage, has announced a new pilot project at Pan-Atlantic University (PAU) in Lagos, Nigeria, as part of ZE-Gen's ...
