

Price of a small IP55 outdoor enclosure for island use

Is an IP55 electrical enclosure suitable for outdoor use?

Normally, IP55 electrical enclosure provides moderate protection against dust and water, making it suitable for outdoor use in relatively harsh environments where the unit may be exposed to weather conditions, but cannot be sprayed directly with water or submerged in water.

What is an IP55 outdoor cabinet?

The second "5" indicates that the body can withstand the effects of water jets coming from any direction. This means that an IP55 outdoor cabinet can operate safely during rain, splashes, or routine external washing, making it suitable for most outdoor telecom and electrical installations.

What is an IP55 rating?

One of the most widely used protection levels is IP55. In this article, we explain what an IP55 rating is, how protection against dust and water is achieved, and which design features allow an IP55 enclosure to withstand outdoor and industrial environments.

What does IP55 mean?

The IP55 marking includes two digits that determine the nature and intensity of the enclosure's protection against external influences. The first digit "5" means that the cabinet is protected against dust to a level that prevents particles from interfering with the operation of telecom, electrical, or industrial equipment.

Find your ip55 enclosure easily amongst the 47 products from the leading brands (RITTAL, OKW, BOPLA, ...) on DirectIndustry, the industry specialist for your professional purchases.
