

Are solar energy companies a scam?

Scammers often impersonate legitimate solar companies, use fake logos, or claim that they are government-affiliated. They usually bait homeowners with limited-time deals or phony government incentives. Do Your Homework. Always research solar energy companies before signing any contract:

How do I avoid solar scams?

Here are some of our recommendations for avoiding solar scams: The saying "there's no such thing as a free lunch" applies when shopping for solar! If you see ads on social media or have a door-to-door salesperson stop by your home and share special programs that pay you to go solar, they're likely not legitimate.

What are the warning signs of a solar power scam?

Other warning signs of a solar power scam are high-pressure sales tactics. Scammers may insist that you sign a contract immediately without giving you time to review the details or do your research. Legitimate solar companies always give you time to review the agreement and answer any questions you may have. 4.
