

# Solar panel manufacturers with a high export share

Which country produces the most solar panels in the world?

The Asian industry continues to dominate the global ranking of solar panel manufacturers. Chinese companies hold eight of the top ten spots, including the entire podium. Who are the top 10 photovoltaic module producers in the world?

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

Who is the largest solar panel manufacturer in the world?

JinkoSolar is the largest solar panel manufacturer in the world. The Shanghai-based company shipped 47.2GWp of solar panels in 2024's first six months, more than any other firm. JinkoSolar has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees, with 1,500 working in the firm's eight research and development centres.

Who is the best solar panel manufacturer?

The top global solar panel manufacturers, based on how many they ship, include JinkoSolar, JA Solar, Trina Solar, and LONGi. However, the best manufacturer for your solar project will depend more on whether their products suit your budget, needs, and lifestyle.

Solar PV Global Supply Chains - Analysis and key findings. A report by the International Energy Agency.

Top 10 Solar Panel Manufacturers by Global Shipments (Q1-Q3 2025) During the first three quarters of 2025, the photovoltaic industry has reached a new balance among the leading ...

JinkoSolar stands as the world's largest solar panel manufacturer, shipping 47.2GW in the first half of 2024 alone. The company became the first solar

This list highlights the top nine largest solar panel manufacturers in China, ranked by production capacity, global market share, and technological advancements, offering a data-backed ...

The photovoltaic (PV) sector continues to dominate renewable energy markets, with China maintaining its stronghold as the world's leading exporter of solar panels. As of Q3 2024, Chinese manufacturers ...

Based on the 2025 market shipment forecast and technology analysis, this report provides an in-depth overview of the world's top 10 photovoltaic module manufacturers to help ...

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for

## **Solar panel manufacturers with a high export share**

Solar Energy Systems. In comparison, Europe and North America each ...

Discover the top solar panel manufacturers in 2025. Compare global leaders with US producers and explore wholesale sourcing options.

Top solar panel (PV module) producers -- 2025 snapshot "Solar panel production" is often quoted as if it were a single, perfectly tracked statistic. In reality, the most consistent, ...

Global photovoltaic industry, 2024 ranking Who are the top 10 photovoltaic module producers in the world? Each year, Wood Mackenzie answers this question with an analysis of the ...
