

The investment to produce EV and energy storage system (ESS) batteries at the cell level will enhance the country's supply chain and bolster EV manufacturing for domestic and export ...

Sunwoda's Chonburi facility, currently under construction, represents its first EV battery cell plant in the ASEAN region, further solidifying Thailand's role in the electrification shift. The ...

Amita Technologies Inc. was established in March 2000 to produce lithium-ion power battery with strong material science research and long test data accumulation supported by ITRI.\*

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see ...

Sunwoda's battery cell manufacturing facilities in Thailand will be its first EV-related battery cell factory in the ASEAN region.

The battery and EV factories primarily serve domestic demand, but the company plans to stabilize its growth in Thailand before expanding to the international market.

Thailand's 2024 plan increases renewable energy, highlighting crucial battery storage systems for buildings and power generation.

Thailand's first domestic electric vehicle battery pack production plant went into operation on Thursday. The plant, run jointly by Chinese battery cell manufacturer Gotion High-tech and Thai ...

Chinese battery maker Sunwoda has secured approval to invest in battery cell manufacturing facilities in Thailand, marking its first EV-related battery cell plant in the ASEAN ...

Thailand's Board of Investment (BOI) said today that it has approved an investment of more than \$1 billion by a unit of Shenzhen-based Sunwoda Electronic to produce batteries for ...
