

A wind turbine at a northern Colorado wind farm folded in half and caught fire Thursday morning, startling neighbors who heard banging noises prior to the collapse.

Work is underway to remove a wind turbine off the Norfolk coast that was catastrophically damaged by fire. Turbine T06 on the Scroby Sands wind farm caught fire on 15 August 2023, and its...

Once a fire starts in a wind turbine it is extremely difficult to put out, due largely to the remote location of the wind farm or individual wind turbine and the height of the turbine...

The generator in a wind turbine can generate a significant amount of heat during operation. If the cooling system fails or is insufficient, it can result in overheating and, in extreme ...

A fire in a wind turbine that sent smoke billowing over the Mid North of South Australia has sparked worries that such a blaze could result in a bushfire on a hotter and windier day.

ADAIR COUNTY, Iowa -- A massive fire destroyed a wind turbine and burned a large farm field in Adair County Tuesday morning.

A wind turbine caught fire, leading to a grass fire beneath it. Fortunately, there were no injuries, but the incident resulted in an estimated \$2.2 million in damages.

OMAHA -- (DTN) On Tuesday, a wind turbine caught fire in Stuart, Iowa, above a harvested soybean field. Smoke billowed for hours and eventually the turbine blade fell, causing fire ...

In a heart-wrenching incident, two out of four maintenance engineers were stuck on a 67-meter wind turbine generator. Both engineers, standing on top of the burning turbine, hugged each ...

First, the common causes section should consider major factors such as electrical faults, mechanical friction, lightning strikes, and oil leaks, with each cause clearly and concisely described....
