

# Trinidad and Tobago Wind Solar Energy Storage Power Station Project

The project is located across two sites, Brechin Castle (92MWac/122MWp), and Orange Grove (20MWac/26MWp). Construction is set to commence on both sites in Q1 2023, and expected to be ...

This initiative is guided by the Cabinet-appointed Wind Energy Steering Committee (WESC), chaired by the MEEI. Formed in April 2024, the WESC coordinates efforts across various ...

At present, there are a number of ongoing renewable energy projects being undertaken through public-private partnership in the Caribbean and the wider region. This includes projects such ...

This wind assessment programme is just one of many ways that we have been collaborating with the country; we are also supporting the development of solar energy, and we have ...

The report also identifies potential onshore and offshore sites for wind energy development and suggests an implementation plan to achieve the country's renewable energy goals.

ENERGY Minister Dr Roodal Moonilal says he intends to have bankable data by next year identifying the best onshore and offshore sites for wind energy projects in Trinidad and Tobago, as...

For Trinidad and Tobago, the most promising natural resources are the sun, the sea, the wind--and increasingly, our waste. The largest utility-scale solar farm in the Caribbean is currently ...

Chaired by the Ministry of Energy and Energy Industries, the WESC coordinates efforts across several agencies and will oversee the execution of a WRAP and eventual Wind Energy Deployment for ...

Effectively, Trinidad and Tobago's energy transition must be accelerated. NGC is playing a critical role in advancing the energy transition through investments, strategic partnerships and collaboration for ...

"Construction of the solar parks is scheduled to commence in the first quarter 2023, with full operationalisation of the project by fourth quarter 2024. The Solar Utility Project will, on ...
