Ports Need Power
A New Role For The Boulaos Power Plant
Shifting The Focus to Rural Electrification
Success Factors
Djibouti's two commercial ports drive much of the country's economic activity. Strategically located on the Red Sea, they serve Djibouti, Ethiopia and other countries in North and East Africa. The two ports consume vast amounts of electricity: the Port of Djibouti alone requires almost 10 MW, making it EDD's largest customer; the new port that open...
