

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

With robust production capacity exceeding 2, 000 specialized containers and various types annually. We are designated manufacturers for new energy systems associated with PetroChina and Sinopec ...

By combining photovoltaic power generation, energy storage, and intelligent control within a modular container platform, these systems support coordinated development across energy, buildings, and ...

Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the features of solar power generation and mobility, it provides electricity all over the world.

Our alfanar Photovoltaic container is supplied fully equipped with photovoltaic central inverters (1000V or 1500V), oil-filled hermetically-sealed LV/MV transformer, Ring Main Units (RMU), low voltage cabinet ...

Perfect for long-term rural microgrid systems, solar-powered telecom relay stations, or infrastructure camps. With 60kW solar input and 215kWh storage in a 20ft container, it supports continuous multi ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover photovoltaic containers with integrated solar panel systems and MPPT controllers for scalable off-grid energy storage. ISO 9001 certified, 20ft-40ft customizable solutions.

Each container with all of the equipment will weigh less than 16 tons. Fully tested before being shipped. Factory will provide free installation support and after sales service. Production time is 4-6 weeks. ...

Explore our range of high-efficiency solar container solutions designed for businesses worldwide. Our containers combine cutting-edge technology with durability and ease of deployment.
